

# **INTERNSHIP REPORT**

*A report submitted in partial fulfilment of the requirements for the  
Award of Degree of*

**BACHELOR OF TECHNOLOGY  
in  
COMPUTER SCIENCE ENGINEERING**

**BY:-SATYAM SHARMA  
UID : 23BCS13253**

Under supervision of Mr. Sunil Ohri(CEO XportSoft Technologies Pvt. Ltd.)  
and Navpreet kaur(Front-end developer XportSoft Technologies Pvt. Ltd.)

**Ambala Cantt  
(Duration:2nd June,2025 to 16 july, 2025)**

**AMITY SCHOOL OF ENGINEERING AND  
TECHNOLOGY**

**CHANDIGARH UNIVERSITY PUNJAB, MOHALI  
2025 – 2026**

# **CERTIFICATE**

This is to certify that the —Internship report submitted by SATYAM SHARMA (UID : 23BCS13253) is work done by her and submitted during 2025 – 2026 academic year, in partial fulfilment of the requirements for the award of the degree of BACHELOR OF TECHNOLOGY in COMPUTER SCIENCE AND ENGINEERING, at Xportsoft Technologies Pvt. Ltd., Ambala Cantt.

Prof. Rajni Mohana  
Dean of ASET

Prof. Monika Bharti  
HOD of ASET

Prof. Himanshu Jindal  
HOS of ASET

## ACKNOWLEDGEMENT

First I would like to thank Mr.Sunil Ohri, CEO of **Xportsoft Technologies Pvt. Ltd** for giving me the opportunity to do an internship within the organization. I also would like all the people that worked along with me **Xportsoft Technologies Pvt. Ltd** with their patience and openness they created an enjoyable working environment. It is indeed with a great sense of pleasure and immense sense of gratitude that Iacknowledge the help of these individuals .I would like to thank my HOD of the Department **Dr. Rajni Mohana** for their support throughout my internship. I am extremely great full to my department staff members and friends who helped mein successful completion of this internship.

**Satyam Sharma(23BCS13253)**

# **ABSTRACT**

## **The Company:**

Xportsoft Technologies, founded in 2005, is a leading IT services firm based in India and the UK. It offers web and mobile app development, software solutions, business consulting, cloud hosting, and digital marketing. The company has completed over 1500 projects with a 98% client satisfaction rate, serving industries globally and working with clients like Raymond and Lupin. Leading experts in their fields, our team of developers, designers, writers, and marketers work with both legacy and cutting-edge technologies. Because we are straightforward and honest in our process, clients around the world adore working with us.

Our mission is to offer our clients high-end IT solutions that are both cost-efficient and strategically suited to their unique business requirements. Our solutions are carefully created to accomplish both immediate and long-term objectives.

## **Programmers and opportunities:**

Xportsoft Technologies offers a variety of opportunities for programmers, especially in areas like web development, application programming, and customer support. For programmers interested in joining Xportsoft, key roles include application developers, web developers, and software testers. The company values innovation and continuous learning, offering a dynamic environment where employees can grow and take on new challenges

### **Methodology:**

During my training I was first able to make clones of many websites designs already existing, then in the last 3 weeks a company named CARVISION in UAE, made there website 2 years ago and wanted to update it and that task was signed by XPORTSOFT. It was a great opportunity for me to work on this project and achieve the design using HTML,CSS and BOOTSTRAP(3&4). I worked on how to make it responsive though.

## **Benefits to the company / institution through your report:**

The Institute combines pioneering training and hands on experience with top class education and hands on experience. An innovative curriculum allows the student flexibility in selecting courses and projects. Students, even at the undergraduate level, get to participate in on-projects in India & foreign projects.

## WEEKLY OVERVIEW OF INTERNSHIP ACTIVITIES

<b>1<sup>st</sup> WEEK</b>	DATE	DAY	NAME OF THE TOPIC/MODULE COMPLETED
	2/06/25	Monday	Introduction to the company and learnt about tables
	3/06/25	Tuesday	HTML Tags
	4/06/25	Wednesday	Creation of navigation bar
	5/06/25	Thursday	Creation of grids and sections
	6/06/25	Friday	Creation of different div sections

<b>2<sup>nd</sup> WEEK</b>	DATE	DAY	NAME OF THE TOPIC/MODULE COMPLETED
	9/06/25	Monday	cloud management template's navigation bar
	10/06/25	Tuesday	Working on template
	11/06/25	Wednesday	Completed the template
	12/06/25	Thursday	Starting of Food restaurant website
	13/06/25	Friday	Done with menu bar and the banner part

<b>3<sup>rd</sup> WEEK</b>	<b>DATE</b>	<b>DAY</b>	<b>NAME OF THE TOPIC/MODULE COMPLETED</b>
	16/06/25	Monday	Introduction to Bootstrap
	17/06/25	Tuesday	Continuation of Bootstrap elements
	18/06/25	Wednesday	Task of creating a form
	19/06/25	Thursday	Creation of div with different properties
	20/06/25	Friday	Clone of XPORTSOFT'S website

<b>4<sup>th</sup> WEEK</b>	<b>DATE</b>	<b>DAY</b>	<b>NAME OF THE TOPIC/MODULE COMPLETED</b>
	23/06/25	Monday	Col of Bootstrap 3 of various sizes
	24/06/25	Tuesday	Responsive Navbar
	25/06/25	Wednesday	Implementation of Carousel
	26/06/25	Thursday	Responsive @media query
	27/06/25	Friday	Clone of WINOIDS website

<b>5<sup>th</sup> WEEK</b>	<b>DATE</b>	<b>DAY</b>	<b>NAME OF THE TOPIC/MODULE COMPLETED</b>
	29/07/24	Monday	Lecture on different phases in RMG
	30/07/24	Tuesday	Concepts on PHP, functions in PHP
	31/07/24	Wednesday	Installation of XAMPP server, how to execute PHP programs using XAMPP server
	01/08/24	Thursday	How to connect with DB using MYSQL server in PHP using XAMPP server
	02/08/24	Friday	Sample Programs on PHP using XAMPP

<b>6<sup>th</sup> WEEK</b>	<b>DATE</b>	<b>DAY</b>	<b>NAME OF THE TOPIC/MODULE COMPLETED</b>
	05/08/24	Monday	Designing of Login page, Registration page using Bootstrapping, CSS
	06/08/24	Tuesday	Designing of Background verification using Bootstrapping, CSS
	07/08/24	Wednesday	Designing of Induction page, Employee page using Bootstrapping, CSS
	08/08/24	Thursday	Execute the pages and pages connect with MYSQL database in XAMPP.
	09/08/24	Friday	Report the defects

<b>7<sup>th</sup> WEEK</b>	<b>DATE</b>	<b>DAY</b>	<b>NAME OF THE TOPIC/MODULE COMPLETED</b>
	12/08/24	Monday	Making Site fully complete with no issues
	13/08/24	Tuesday	Responsive for 1299,1199 screens
	14/08/24	Wednesday	Responsive for 1099,991 screens
	15/08/24	Thursday	Responsive for 767, 576 screens
	16/08/24	Friday	Last day error checking and certificate ceremony

# 1. INTRODUCTION

During my 45-day front-end development training, I embarked on an intensive journey to sharpen and apply my skills in a structured and purposeful manner. The training was divided into two distinct phases, each designed to build on the other. In the first three weeks, I concentrated on refining my proficiency in essential front-end technologies, including HTML, CSS, Bootstrap, and jQuery. This period was pivotal in deepening my understanding of responsive design, layout structuring, and the creation of dynamic, interactive elements, all of which are fundamental in modern web development.

In the following three weeks, I had the opportunity to put these honed skills into practice through a real-world project. My task was to upgrade the website for CarVision, a UAE-based company, using a Figma design as the blueprint. This project was both challenging and rewarding, as it required me to meticulously translate static visual designs into a fully functional, responsive website. I utilized HTML and CSS to structure and style the site, Bootstrap to ensure that it was consistently responsive across a wide range of devices, and jQuery to introduce interactive elements that enhanced the overall user experience.

This project not only put my technical abilities to the test but also gave me invaluable experience in bridging the gap between design and development. It allowed me to experience firsthand the process of transforming a client's vision into a tangible, functional product, emphasizing the importance of effective collaboration, attention to detail, and adaptability in real-world scenarios.

Throughout this journey, I was fortunate to be guided by a team of expert instructors who were not only highly knowledgeable but also incredibly supportive. Their guidance was instrumental in helping me overcome challenges and refine my approach. They fostered an environment of continuous learning and encouraged me to push the boundaries of my skills. The cooperative office culture within this training program was also a significant departure from what I had encountered before. The emphasis on collaboration, open communication, and mutual support created a unique learning environment that was both inspiring and empowering.

This experience not only tested my technical abilities but also provided invaluable insights into the process of transforming a client's vision into a tangible, functional product. It underscored the importance of effective collaboration, attention to detail, and adaptability in real-world scenarios, all

within a supportive and cooperative work culture that greatly enriched my learning experience.

## 2. Learning Objectives/Internship Objectives

- **Practical Application of Theoretical Knowledge:** Bridge the gap between classroom learning and real-world application by working on live projects.
- **Industry Exposure:** Gain insights into industry practices, workflows, and standards, providing context to academic studies.
- **Project Management:** Experience the process of planning, executing, and managing a project from start to finish, applying project management principles.
- **Mentorship and Guidance:** Benefit from the mentorship of experienced professionals, gaining insights that can shape your career trajectory and professional growth.
- **Professional Development:** Cultivate professional behaviors, including work ethics, time management, and problem-solving abilities.
- **Evaluation and Feedback:** Receive constructive feedback from industry experts, helping to assess strengths and areas for improvement.

### 2.1 Requirement Analysis

The main objectives for undertaking this project are:

- Gain a comprehensive understanding of the front-end development process and its integration with the overall web development workflow.
- Analyze the existing website's front-end structure to identify areas for improvement, such as enhancing UI design, optimizing loading times, and improving responsiveness.

- Provide practical recommendations for streamlining the front-end development workflow, including better use of tools, libraries, and frameworks like Bootstrap and jQuery.
- Gain insights into the role of a front-end developer, including responsibilities, challenges, and collaboration with designers, back-end developers, and other stakeholders.
- Develop practical knowledge by applying theoretical concepts of front-end technologies (HTML, CSS, Bootstrap, jQuery) in a real-world project.

## 2.2 Need for Efficient Front-End Development

Efficient front-end development ensures that the website is user-friendly, responsive, and visually appealing, making it possible to deliver a seamless user experience. It also ensures that the codebase is maintainable, scalable, and optimized for performance, which is essential for the ongoing success of the project.

- **Planned Needs:** These arise from the project's initial design and development strategy, such as the need for a responsive layout or adherence to design guidelines provided by tools like Figma.
- **Anticipated Needs:** These refer to requirements that can be predicted by analyzing current trends in web design and user behavior, such as the increasing importance of mobile-first design or accessibility considerations.
- **Unexpected Needs:** These occur due to unforeseen challenges during development, such as browser compatibility issues, changes in client requirements, or technical difficulties.

### 3. Front-End Development Process

Front-end development follows a structured approach and works in tandem with back-end development and design processes, ensuring the overall success of the project. Without a solid front-end foundation, even the most robust back-end systems may fail to deliver a satisfactory user experience.

#### 3.1 MODULES:

Explain the modules in detail (functions etc)

1. Home page
2. Navigation bar
3. Service details
4. Featured products section
5. Footer for other links
6. Responsive behavior

#### 3.2 Training Overview:

The 45-day front-end development training was structured to provide a comprehensive learning experience, blending theoretical knowledge with practical application. The training was divided into several phases, each focusing on different aspects of front-end development.

##### Training Phases:

##### 1. Foundational Learning:

- **HTML:** We began by mastering HTML, learning how to structure web pages using elements like headings, paragraphs, lists, and tables. My mentor emphasized the importance of semantic HTML for web accessibility and SEO.
- **CSS:** The focus then shifted to CSS, where I learned how to style web pages. This included understanding selectors, properties, the box model, positioning, and responsive design techniques. I worked on creating various elements, including a responsive banner and animated borders, to enhance the visual appeal of the web pages.

- **Bootstrap:** The training introduced Bootstrap, a powerful CSS framework, which I used to create responsive and visually appealing web pages. I learned how to utilize Bootstrap's grid system, components, and utilities. I also customized components like the navigation bar, ensuring it was fully responsive across different devices.
- 2. **Hands-on Projects:** With a strong foundation in HTML, CSS, and Bootstrap, I moved on to apply my skills in a real-world project. I worked on upgrading the website of a UAE-based company, where I incorporated the responsive banner, navigation bar, and animated borders that I had developed. My mentor provided guidance during 3-hour daily sessions, and I spent additional hours at home refining the project to meet professional standards.
- 3. **Template Development:**
  - **First Template:** I created a responsive template using HTML, CSS, and Bootstrap, which served as a mock-up for potential client projects.
  - **Second Template:** The second template involved more advanced Bootstrap components and custom styling, making it adaptable for various website types.

These phases ensured that I not only gained a solid understanding of front-end development technologies but also honed my skills in creating responsive and interactive web elements.

## **4.SYSTEM REQUIREMENTS SPECIFICATIONS:**

### **4.1System configurations**

The software requirement specification can produce at the culmination of the analysis task. The function and performance allocated to software as part of system engineering are refined by established a complete information description, a detailed functional description, a representation of system behavior, and indication of performance and design constrain, appropriate validate criteria, and other information pertinent to requirements.

### **4.2Software requirements:**

Operating System: Windows

Coding Language: HTML, CSS and Bootstrap3/4.

### **4.3Hardware Requirements:**

Processor	: Intel core i5
Memory	: 8GB RAM
Hard Disk	: 1TB

## 5. Technology Used:

### 5.1 HTML:

HTML (HyperText Markup Language) is the standard language used to create and design web pages. It provides the basic structure for web content, which browsers interpret to display text, images, and other elements on a webpage. Here's a breakdown of what HTML is and how it functions:

- **Purpose:** HTML is the foundational language for creating web pages. It structures the content on the web by using a series of elements, such as headings, paragraphs, links, images, and lists.
- **Key Features:**
  - **Semantic Elements:** HTML5 introduced semantic elements like `<header>`, `<footer>`, `<article>`, and `<section>`, which improve the readability of the code and enhance accessibility.
  - **Forms and Inputs:** HTML allows you to create forms, which are essential for user input, with a variety of input types like text fields, radio buttons, checkboxes, and more.
  - **Media Integration:** You can embed images, videos, and audio directly into your web pages using HTML tags like `<img>`, `<video>`, and `<audio>`.

### 5.2 CSS( CASCADING STYLE SHEETS):

□ **Purpose:** CSS is used to style and layout web pages. It controls the visual appearance of HTML elements, including colors, fonts, spacing, and positioning.

- **Key Features:**
  - **Selectors:** CSS uses selectors to target HTML elements, allowing you to apply styles to specific parts of the page.
  - **Box Model:** CSS's box model concept helps in designing and spacing elements on a web page, taking into account margins, borders, padding, and content.
  - **Flexbox and Grid Layout:** These modern CSS layout models enable responsive design, making it easier to create layouts that adapt to different screen sizes.

- **Animations and Transitions:** CSS allows you to add animations and transitions to elements, making the user interface more interactive and visually appealing.

## 5.3 BOOTSTRAP:

- **Purpose:** Bootstrap is a popular front-end framework that helps in building responsive and mobile-first websites quickly and efficiently. It provides a collection of pre-designed components and utilities that can be easily customized.

- **Key Features:**

- **Grid System:** Bootstrap's 12-column grid system enables you to create responsive layouts that adjust to different screen sizes, from mobile to desktop.
- **Pre-designed Components:** Bootstrap offers a wide range of components like navigation bars, buttons, forms, modals, and carousels, which can be easily integrated into your web pages.
- **Customizable:** Bootstrap is highly customizable. You can override its default styles with your own CSS or use the built-in customization options to match the design requirements of your project.
- **Responsive Design:** Bootstrap is designed to be responsive by default.

## 7. SCREENSHOTS:-

## ABOUT CARVISION

Our team of professionals is dedicated to delivering excellence.

Highly Qualified Experts

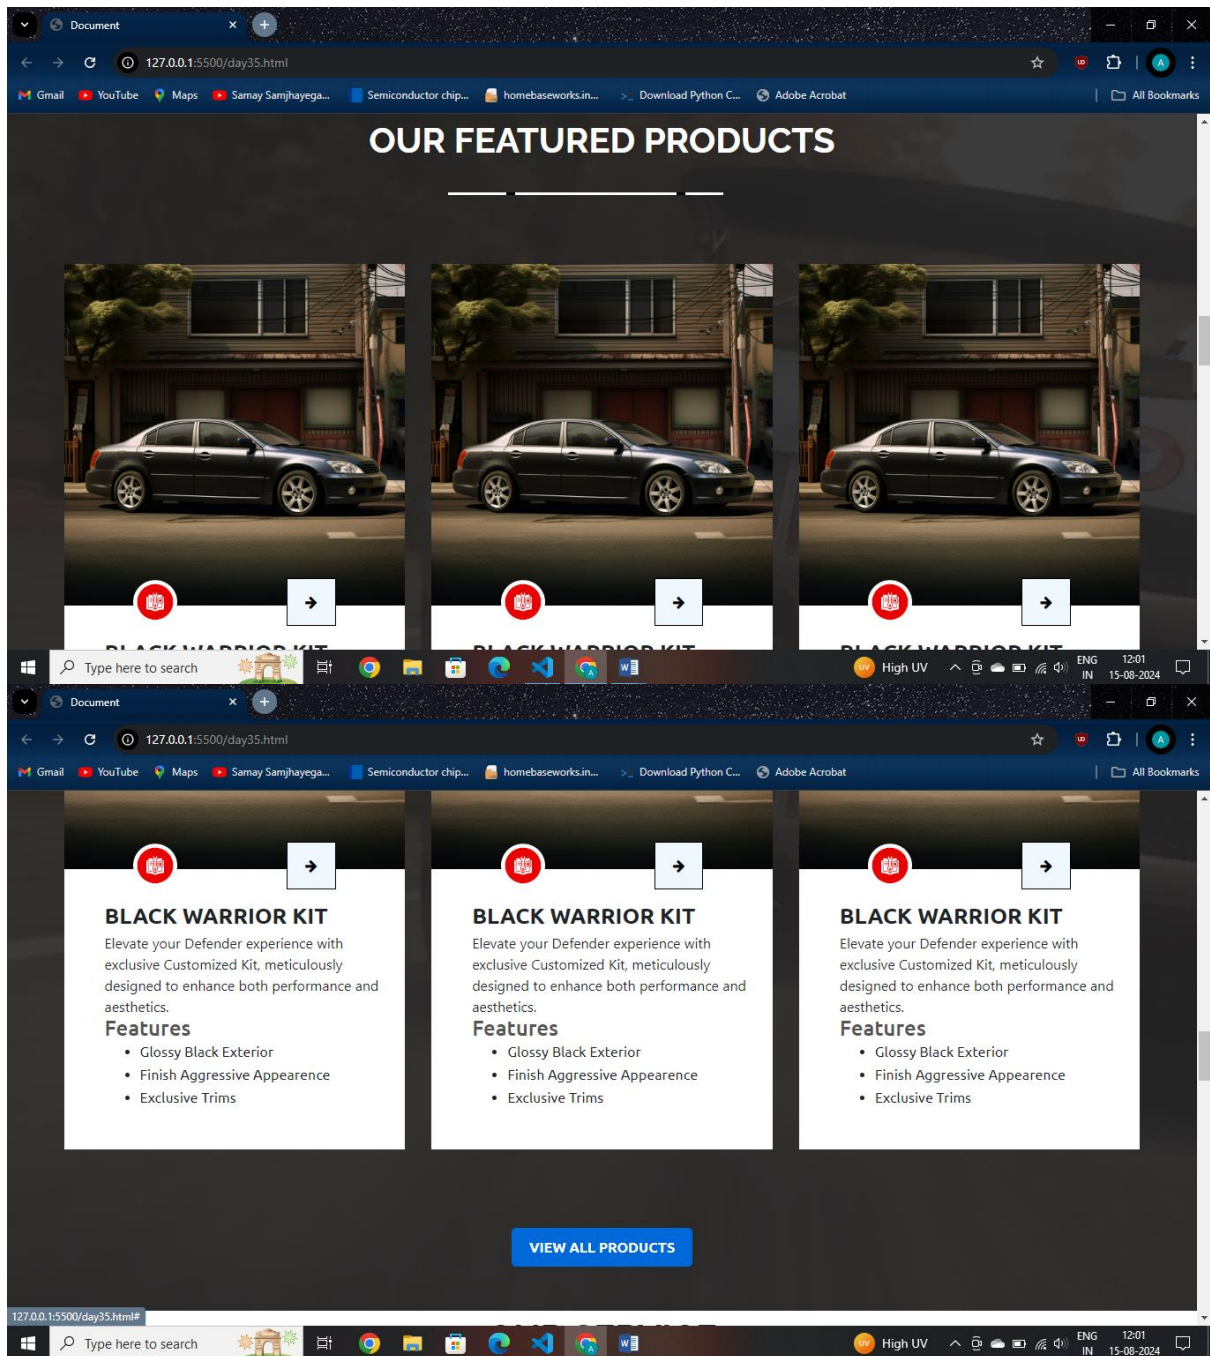

Clean And Modern Facility

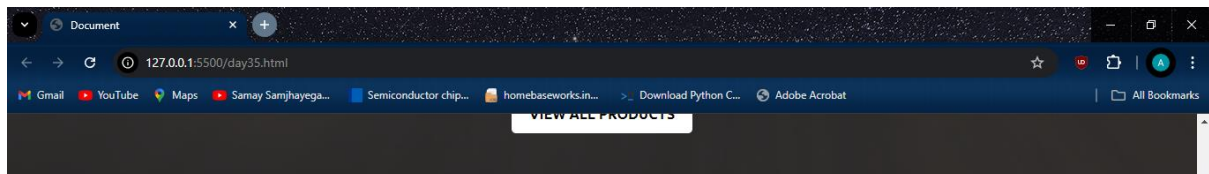

Customer Satisfaction

## OUR SERVICE

Accessories

MULTIMEDIA

These advanced systems offer a range of benefits over traditional car stereos

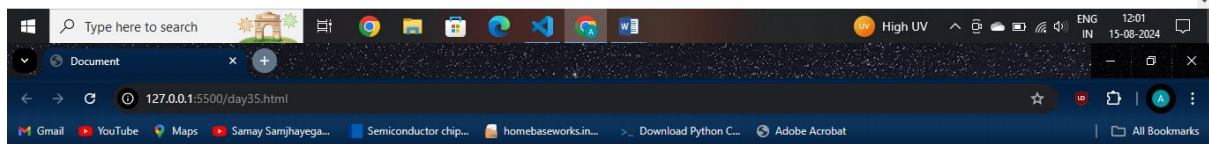

DVR SYSTEM

Body -Kit

## WHY CHOOSE US

## WHY CHOOSE US

We offer vast range of brands support from different countries and with different type of vehicle support.

**Fitness Checking Facility**

You only need a few steps in ordering food

**Car Denting Repair**

Delivery that is always ontime even faster

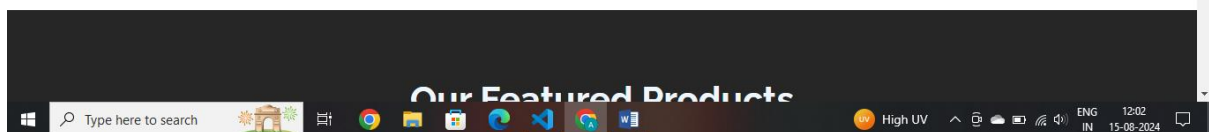

**Mechanical Engineering**

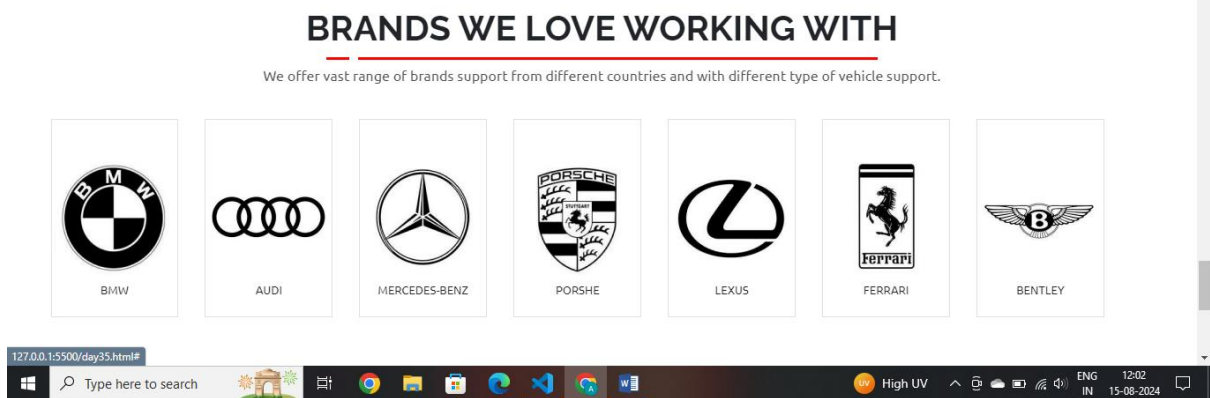

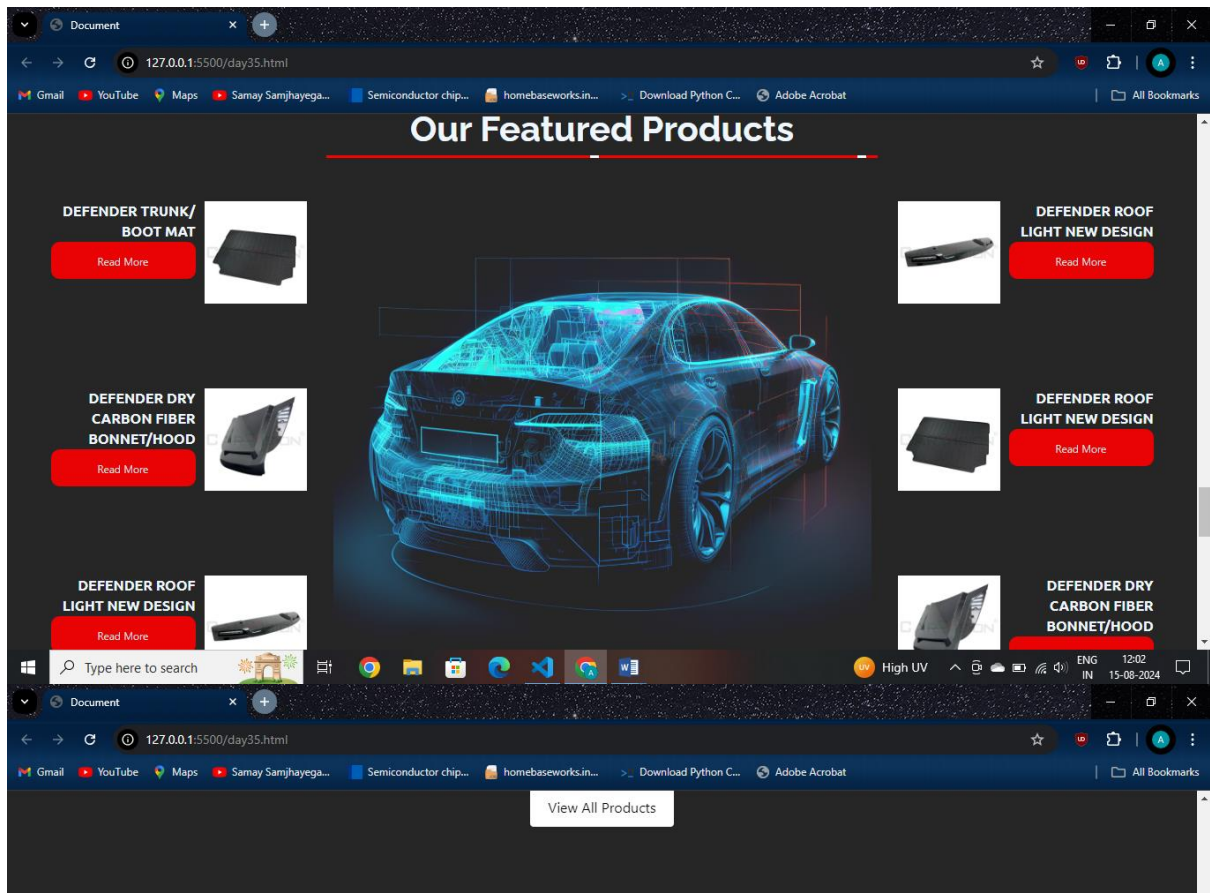

Delivery that is always ontime even faster

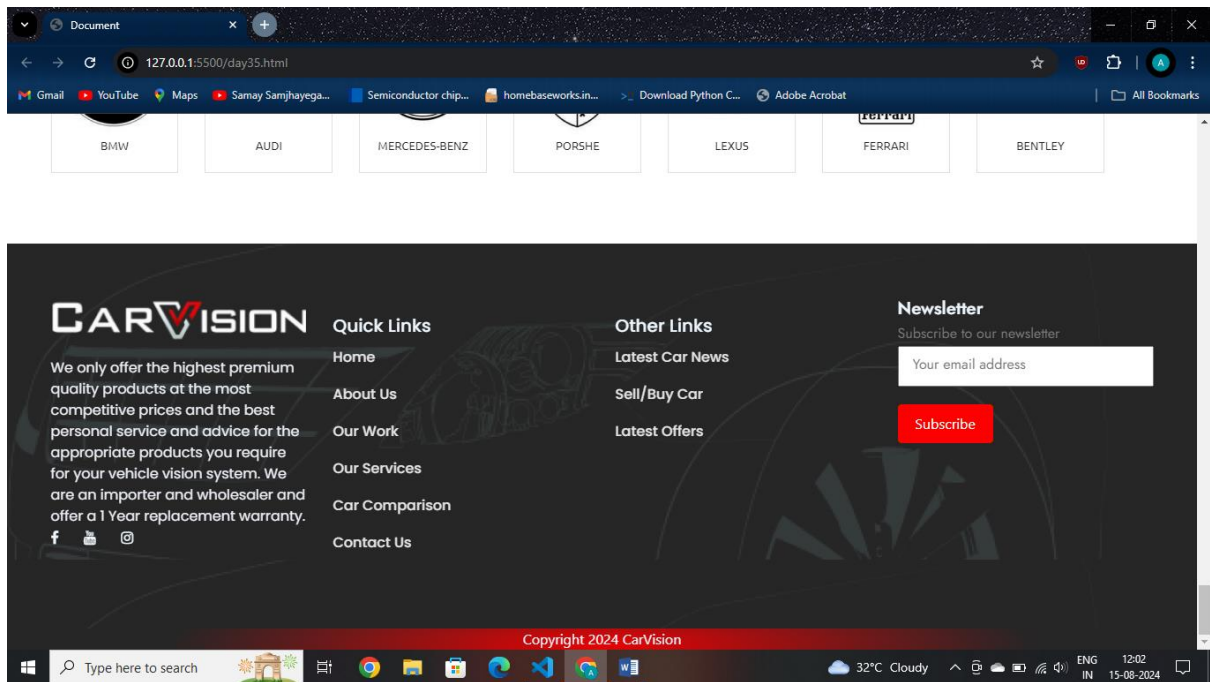

**Modern Technology**

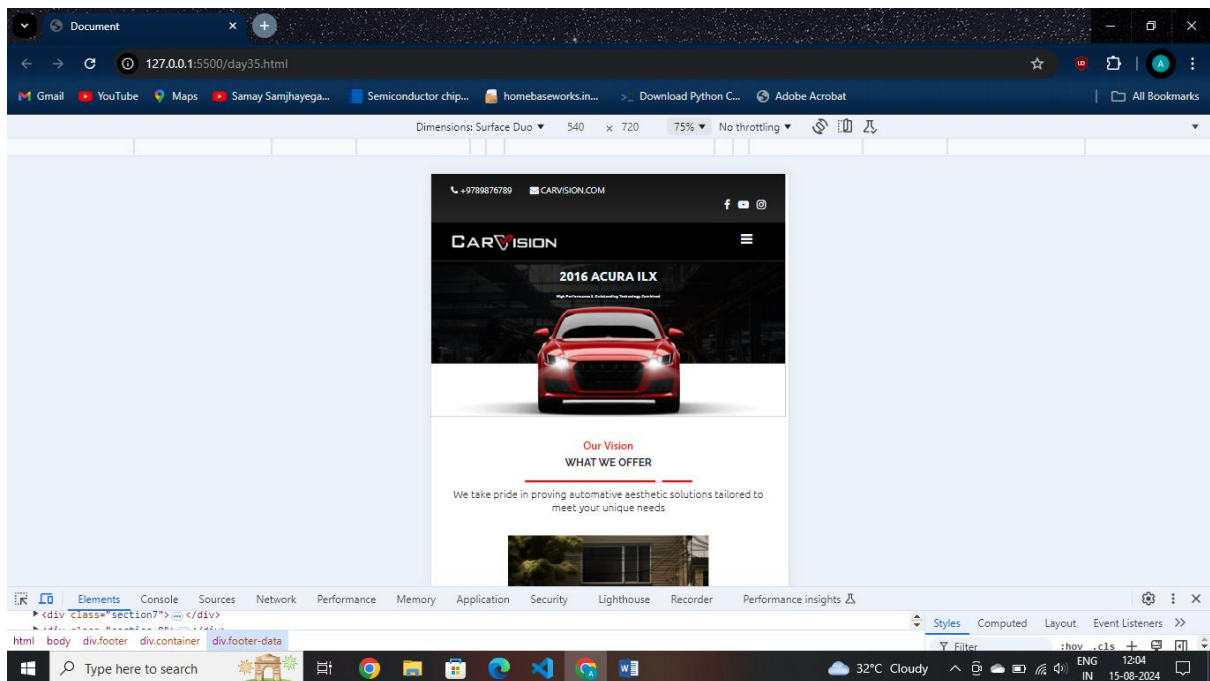

Delivery that is always ontime even faster

**RESPONSIVE:-**

## **8.CONCLUSION:**

Here's a concise conclusion for your 45-day front-end development training:

"My 45-day front-end development training at Xportsoft significantly enhanced my skills in HTML, CSS, Bootstrap, and jQuery. I successfully applied these skills to real-world projects, including upgrading a UAE-based company's website. The hands-on experience, combined with expert mentorship, has prepared me to tackle complex web development challenges with confidence."

## **9.BIBLIOGRAPHY:**

### **1. Xportsoft Technologies**

Training Materials on HTML, CSS, Bootstrap, and jQuery.

Xportsoft Technologies, 2024.

### **2. Figma Design Tool**

Figma Inc.

Utilized for designing and implementing website upgrades during training.

### **3. Visual Studio Code (VS Code)**

Microsoft Corporation.

Software used for coding and project development during the training.

### **4. CarVision Website Project**

CarVision, UAE-based Car Services Company.

Practical project involving the upgrading of a company website using front-end development skills.

### **5. W3Schools**

W3Schools Online Web Tutorials.

Available at: <https://www.w3schools.com>

Referred to for HTML, CSS, and jQuery tutorials and best practices.

### **6. Bootstrap**

Bootstrap Documentation.

Available at: <https://getbootstrap.com>

Used as a reference for implementing responsive design and UI components.
